

AMI CORNER – October 2015

Choptank Electric's deployment of AMI (Advanced Metering Infrastructure) is making progress throughout our service territory. Most residential meters in the St. Michaels and Ocean Pines areas have been installed, and Choptank Electric meter technicians will be changing out commercial and large power meters within the next few months. In mid-September we moved into the Chestertown District area.

Our AMI Open House events, held at the Galena Fire Hall, August 29 and at the Sudlersville Fire Hall, September 3, provided our members with the opportunity to meet with Choptank Electric staff directly involved with the project and receive factual information regarding the technology behind the advanced meters. The AMI Open House events are hosted, by the Co-op, in advance of moving into the next district where the meters will be deployed. As always, all members are welcome to attend any or all of the Open House events.

We expect to be moving on into the Denton District by late November. Our next AMI Open House is scheduled for Thursday, October 29 from 4:00pm – 6:00pm in our Denton District Meeting Room, located at 24820 Meeting House Road, Denton, MD. We look forward to seeing our members and providing them with factual information about AMI meters and our deployment schedule.

Advanced Meter Information

Information concerning our AMI meter deployment, fact sheets, videos, and opt out materials may be found on our website at www.choptankelectric.coop, by clicking on the Advanced Meter Information button. We encourage our members to familiarize themselves with this useful, factual, and education information. If you do not have internet access, please contact our Member Service Center at 1.877.892.0001 and this information will be mailed to you.
